

1st EGYPTIAN INTERNATIONAL TRAUMA CONFERENCE

ALGALAA MAJOR TRAUMA CENTER
A NEW ERA IN MAJOR TRAUMA CARE

Friday 14th November 2014

Program Book

1st Egyptian International Trauma Conference

Welcome Message

Dear Colleagues,

On behalf of AL Galaa Medical Military Complex (GMMC), it is a pleasure to announce the 1st Egyptian International Trauma Conference taking place in AL Galaa theatre, Cairo, Egypt on the 14th-15th of November 2014, as huge start for the launch of the 1st Military Major Trauma Center in Egypt. The Conference committee has pride to organize the conference with the participation of world top class national and international speakers, aiming to provide an outstanding scientific program and workshops in the field of trauma. The conference designed to attract all medical personnel working in the trauma management field and will focus on providing participants with a clear vision of trauma system, network and education. We cordially invite you to actively contribute and partner with us to make this meeting most successful. I thank you all for your participation in advance and wish you a fruitful time that promotes safe and competent Trauma practice in the workplace.

Workshops (EgRC)

(20 Candidates)

Focused Assessment Sonography for Trauma patient (FAST)

15 Nov 2014

FAST examination is used to detect free intraperitoneal and peri-cardial fluid in the setting of trauma and with extended FAST (eFAST) the detection of pneumothorax can be life saving. FAST is now considered as one of the basic skills of trauma management. This workshop gives you an overview about how to operate an U/S machine and perform FAST in a professional way.

(20 Candidates)

Recent guideline in trauma management - TEAM approach

15 Nov 2014

This workshop provides systemic and concise training for the early care of trauma patients. The European Trauma Course (ETC) program provides participants with a safe, reliable method for immediate management of the injured patient using TEAM approach

(20 Candidates)

BLAST injuries

15 Nov 2014

BLAST injuries is an important workshop that deals with the general discussion of explosive events, scene safety and triaging of victims, complication of explosion events and management of patients as a computer based interactive cases.

Registration will be through the Organizing Company
